Urban Fires : Put out the Risk

In Mexico, power failures and gas leaks mostly cause fires

What should you do in case of
FIRE?
Security decalogue for hosts

1. Check power and gas lines. Prevent is the best option

2. Keep calm

3. If possible, put the fire out with the extinguishers

4. Shut off gas and power supply

5. If fire spreads, leave the area

6. If there is gas and smoke, hit the deck and move

7. Cover nose and mouth with a wet cloth

8. Don´t use elevators

9. If your clothes catch fire don´t run. Lie on the floor and roll over

10. Don´t look for personal objects
